Education

Pimpri Chinchwad College of Engineering, Pune — **CGPA - 8.51**
B.Tech in Computer Engineering — *2027*

CIS, Baramati — **Percentage - 84.67**
HSC 12th — *2023*

KNB PSS, Phaltan — **Percentage - 100.00**
SSC 10th — *2021*

Experience

Prodigy InfoTech | *Web Development Intern* — **June 2025**

- Worked on real-world web development projects, gaining hands-on experience in practical application of frontend and backend technologies.
- Contributed to building scalable and efficient web solutions while adhering to professional development practices.

Projects

Supply Chain Management for Agriculture Products (Website) | *HTML, CSS, MongoDB, Express.js, React.js, Node.js*

- Developed a responsive web platform to streamline supply chain operations for agricultural goods, facilitating seamless transactions between farmers, distributors, and retailers.
- Implemented real-time product tracking, inventory management, and user authentication modules with a farmer-friendly UI.

Travel Recommendation System (Website) | *HTML, CSS, JavaScript, Flask, Python*

- Developed a data mining–based travel recommendation system that analyzes user preferences and applies similarity measures to suggest personalized destinations.
- Created an interactive frontend using HTML, CSS, and JavaScript, integrated with a Flask backend handling data processing, recommendation logic, and user interactions.

Neural Network Based - Startup Success Prediction | *Python, TensorFlow, Keras, Scikit-learn*

- Developed a multi-layer neural network model trained on real-world startup datasets to classify startups as successful or unsuccessful.
- Applied data preprocessing techniques and feature engineering to improve model accuracy and reduce overfitting.

Technical Certifications/Achievements

- Coding Ninjas: Basics of Python
- SimpliLearn: Introduction to Applied Data Science with Python, Basics of Data Structures and Algorithms, Machine Learning Using Python, Introduction to Cryptography
- Udemy: Java Programming Certification
- Certification of Excellence: Data Structures in C++ Course
- 5 Stars in C++, Problem Solving on HackerRank Coding Platform
- Participated in Smart India Hackathon
- Successfully copyrighted project: *Supply Chain Management for Agricultural Products (Cotton)*

Technical Skills

Languages: C, C++, Python
Frameworks/ Technologies: HTML, CSS, JavaScript
Databases: MySQL, MongoDB
Version Control: Git, Github
Developer Tools: VS Code, Eclipse IDE, Jupyter Notebook, MySQL Workbench

Leadership / Extracurricular

CESA-ACM | *Public Relations Executive*

- Volunteer and Participation in CESA-ACM's Anantya Tech Fest, organizing hackathons and coding competitions to boost student involvement in tech.

International Relation Cell,PCCOE | *Event Management Head*

- Volunteer and Participation in Know Japan,Explore Germany Event and Higher Studies Related Guidance Sessions.
